

MODSCENE

Modscene has built its reputation on creating premium planters that stand apart.

Known for design innovation, refined proportions and lasting quality, our products are chosen by landscapers, designers, architects and discerning homeowners who want a planter that elevates the entire space.

The Modscene Team

Our Mission

To innovate and develop
products that make a
statement.

To beautify spaces.

To create enjoyment.

OUR PROOF POINTS

Long Lasting

OUR PROCESS & HISTORY OF ROTATION MOULDING

Modscene is a family-owned business passionate about quality products that make a statement in landscape spaces.

It all began in 1995 when the previous generation(grandad) developed a successful rotational moulding business. An original product of this business was a basic square planter. We still have one of these planters at Modscene, which is still non-perished and strong after all that time!

Modscene follows on from a family history of rotational moulding. It's in our blood, and we are delighted to make some of New Zealand's finest planters that have been proven for generations.

MODSCENE

SMOOTH COLOUR RANGE

Ebony

ACCESSORIES/OPTIONS:

STAINLESS STEEL POT RISERS

Modscene pot risers are designed and made specifically for our planters. Measuring 40mm x 6mm, they raise the planter 6mm off hard surfaces, allowing airflow under the planter. These risers are designed to look smart and don't extrude from the planter's sides. Once fitted, you can barely see or notice them.

MADRID 600 & LISBON 600 SAUCER

Specially suited to the Madrid 600 & Lisbon 600 planters, this large, attractive saucer is available in multiple colour options.

OPTIONAL OPEN-BASE PLANTERS

Open-base planters, especially suited but not limited to our Cylindrus planter range, are ideal for building up soil in poor conditions. They allow the plant to extend its roots naturally into the ground as it develops. Contact sales@modscene.co.nz for open-base options.

OUR ORDER PROCESS:

Place Your Order

We make to order in our own NZ based factory. Place your order today by email or phone.

Manufacture

After receiving your order, we manufacture your desired products.

Delivery

Modscene delivers New Zealand-wide. We will deliver your order to your specified address.

You Install

Our planters are lightweight when empty. Upon arrival, they are easy for you to install on-site.
