

Dirk Wynants earned international fame as a trendsetter in outdoor living. More than anyone else, he drew his inspiration from an engaged and creative vision of design. He has not only attention for the material requirements, but he also explores the different ways of answering some of the important themes circulating in society. For him, contemporary design is more than a matter of trendy or attractive objects. Design is about innovative solutions that contribute to making a better world.

CONCEPT

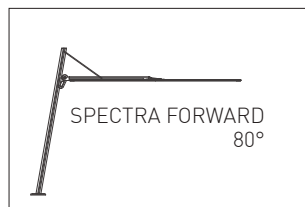

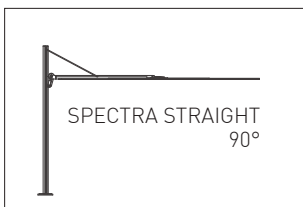

Because of its unique shape, the Spectra offers an endless variety of positions. This stunning shade maker combines the beauty of the flat design with the functionality of the fan system. Thanks to this system, the umbrella closes horizontally instead of vertically. A unique and contemporary concept.

TRUMPS

- Fan technology
- Strong and wind-resistant
- Contemporary minimalism

NICE TO KNOW

- The single Spectra comes with a rotation spigot which is 360° rotatable.
- A round support is included.
- The fan principle makes it possible to close the umbrella against the pole (cover bag included).

Different positions are possible.

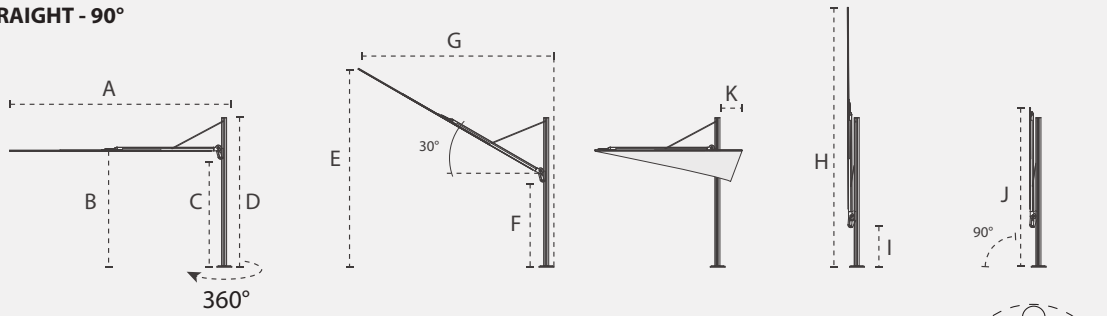

The single Spectra is 360° rotatable.

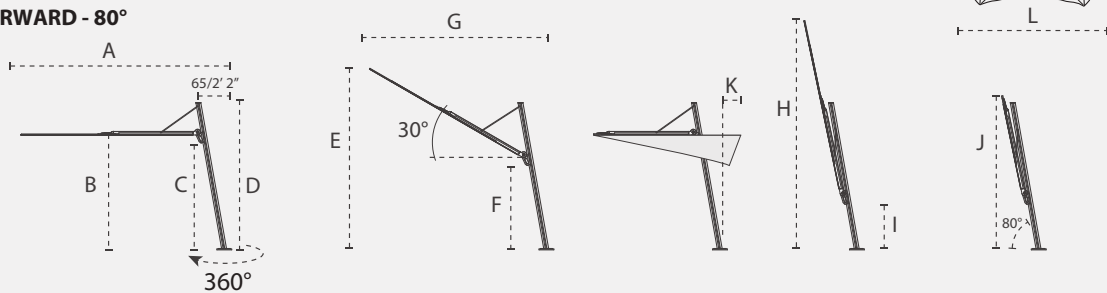

The fan principle makes it possible to close the umbrella against the central pole.
